01 — HISTORY

WE ARE RUIDO

In the shadow of the Aconcagua and under the heat of the Cuyo desert, **RUIDO** began to take shape in January 2023, in the basement of a rehearsal room in downtown Mendoza, led by Ariel Karlen and Rober Aguilar.

With the arrival of German Trigueiro Soler on vocals and Horacio Aguilar on drums, the project began taking shape and carving out a place in Mendoza's stoner scene, back then under the name Caronte.

In July 2025 the first EP arrives. A record that marks a before and after, not only in sound but also in the band's identity. Before its release, Horacio leaves the group and, amid that chaos, Caronte was left behind and **RUIDO** was born.

But the story doesn't stop there. After the release come new changes: Gino Bailone joins the drums and Rober takes another path, with Luis Sanguinet entering in his place, leaving Ariel and German as the only members still standing since the beginning.

Today, **RUIDO** rises once again over its own ruins, looking ahead, with the volume turned up and new songs taking shape.

Because some bands are born from a plan, but **RUIDO** was born from noise.
